**PROFILE** Proven environmental, health and safety (EHS) management professional who succeeds in reducing costs related to company operations. Available June 2013 for international and U.S project work. Certified industrial hygienist (CIH), certified safety professional (CSP).

## **CAREER HIGHLIGHTS**

- Conducted safety and health assessments in international upstream and downstream operations.
- Provided industrial hygiene and safety services throughout the Caribbean, South America, and West Africa.
- Led EHS compliance audits internationally and domestically.
- Directed a team that achieved OSHA VPP status at a new acquisition.
- Served on due diligence teams for acquisitions in the \$100-\$300M range.
- Participated as a member of international oil spill and local hazardous material teams.
- Acquired disaster experience as a FEMA safety cadre reservist. (Katrina, Ike, Irene)
- Provided EHS technical services for environmental cleanups in Ecuador, Panama and the Virgin Islands.
- Solved complex indoor air and mold problems.
- Team player, excellent communication and leadership skills.

## **PROFESSIONAL EXPERIENCE**

**Pinnacle Services, LLC** 6/2011 – Present, Christiansted, VI  
Environmental, Health and Safety Manager

Provided industrial hygiene services to maintenance contractors at the HOVENSA refinery on St. Croix. Directed computer based training and classroom training for contract maintenance employees. Coordinated contract medical services including drug and alcohol testing and respirator fit-testing. Conducted air monitoring and exposure evaluations for tank cleaning projects and refinery cleanup activities. Chaired the refinery/terminal Contractor Safety Association (CSA).

**P2 Analytics** 2/2007 – 6/2011, Key Biscayne, FL  
Owner

Business established to assist clients with EHS management and cost-control. Clients include an aerospace manufacturing corporation, a major Caribbean petroleum refiner, a private university and FEMA: (hurricanes Katrina, Gustav, Ike and Irene). The business model offers a value proposition to the client by providing affordable on-site management of EHS programs without the need for full-time staff.

**Watsco, Inc.** 2/2002 – 2/2007, Miami, FL  
EHS Director and VP Health and Safety of Baker Distributing Co.

Reporting to the President, responsible for the design, development and implementation of the corporate environment, health and safety program and fleet management program for the world's largest HVAC distributor. Reduced self-insured worker's compensation costs and injury rates after implementation of the comprehensive program. Used Six Sigma tools to define, measure, analyze and control the EHS processes. Developed EHS, fleet and HR web tools and metrics. Directed the development of VPP safety councils representing 165 company locations. Recruited and hired subsidiary level EHS leads. Responsibilities were expanded to include business auditing and strategic planning.
